

LASERJET PRO 400 MFP M425 SERIES

Automatically print on both sides (Mac OS X)

1. Insert enough paper into one of the trays to accommodate the print job.
2. On the **File** menu, click the **Print** option.
3. In the **Printer** drop-down list, select this product.
4. Select the **Layout** drop-down item.
5. From the **Two-Sided** drop-down list, select a binding option.
6. Click the **Print** button.
