

LASERJET PRO 400 MFP M425 SERIES

Scan to a USB flash drive

1. Load the document onto the scanner glass or into the document feeder.
2. Insert a USB flash drive into the port on the front of the product.
3. From the Home screen on the product control panel, touch the **Scan** button.
4. Touch the **Scan to USB Drive** screen.
5. Touch the **Scan** button to scan and save the file. The product creates a folder named **HPSCANS** on the USB drive, and it saves the file in .PDF or .JPG format using an automatically generated file name.

NOTE: When the summary screen opens, you can touch it to adjust settings.

You also can change the folder name.
