Secure the HP Embedded Web Server

Assign an administrator password for access to the product and the HP Embedded Web Server so that unauthorized users cannot change the product settings.

1. Open the HP Embedded Web Server by entering the product IP address into the address line of a Web browser.
2. Click the **Security** tab.
3. Open the **General Security** menu.
4. In the **Username** field, type the name to associate with the password.
5. Type the password in the **New Password** box, and then type it again in the **Verify password** box.

NOTE: If you are changing an existing password, you must first type the existing password in the **Old Password** field.

6. Click the **Apply** button. Make note of the password and store it in a safe place.
