Color LaserJet Enterprise Flow MFP M880

Manually print on both sides (Windows)

- **NOTE:** Your print driver might look different than what is shown here, but the steps are the same.
 - 1. From the software program, select the **Print** option.
 - 2. Select the product from the list of printers, and then select **Properties** or **Preferences** (the name varies for different software programs).

 Select the Print on both sides check box. Click the OK button to print the first side of the job.

- 5. Retrieve the printed stack from the output bin, and then place it with the printed-side facing up in Tray 1.
- 6. If prompted, touch the appropriate control panel button to continue.
